'Trail of Lies, Obfuscations and Cover-ups': 15 Federal Agencies Knew About EcoHealth's Gain-of-Function Proposal in 2018 But Said Nothing

Senator Rand Paul and the Senate Homeland Security and Governmental Affairs Committee are investigating 15 federal agencies that were briefed in 2018 on EcoHealth Alliance's proposal to create a novel coronavirus "shockingly similar to the COVID-19 virus" but failed to sound the alarm when the pandemic struck.

Sen. Rand Paul (R-Ky.) and the Senate Homeland Security and Governmental Affairs Committee announced on Tuesday they will investigate 15 federal agencies that were briefed in 2018 on a proposal to "insert a furin cleavage site into a coronavirus to create a novel chimeric virus that would have been shockingly similar to the COVID-19 virus."

The $14.2 million project — DEFUSE, developed by Peter Daszak, Ph.D., president of EcoHealth Alliance in collaboration with the Wuhan Institute of Virology (Wuhan lab) — was proposed on Jan. 30, 2018, during the Defense Advanced Research Projects Agency's (DARPA) PREventing EMerging Pathogenic Threats (PREEMPT) Proposers Day program.

"Disturbingly, not one of these 15 agencies spoke up to warn us that the Wuhan Institute of Virology had been pitching this research," Paul said in the announcement, which noted that it took until 2021 before the public even learned of the DEFUSE project.

Newly obtained documents confirm yet again Fauci lied about COVID. Fauci's NIH lab was a partner with Wuhan on a proposal to engineer a highly transmissible coronavirus in 2018. But he wasn't alone, 15 government agencies knew about it and said nothing. Americans deserve answers.

In announcing the investigation, Paul cited new information from documents not yet made public revealing that the National Institute of Allergy and Infectious Diseases (NIAID) Rocky Mountain Laboratories was a partner in the DEFUSE proposal.

In Paul's letters to the agencies, he named Rocky Mountain Laboratories's Vincent Munster, Ph.D., as the working partner in DEFUSE. Munster was co-author of a Jan. 24, 2020 New England Journal of Medicine article about "a novel coronavirus emerging in China" that neglected to mention the Wuhan lab or gain-of-function research on coronaviruses conducted there.

The letters also named the following newly discovered DEFUSE partners: the lab of Ralph Baric, Ph.D., at the University of North Carolina (UNC), Duke-NUS (National University of Singapore) Medical School and the lab of virologist Dr. Ian Lipkin at Columbia University.

Lipkin was one of the authors of the 2020 "Proximal Origin" paper that attempted to discredit the lab-leak theory of SARS-CoV-2 origins.

Paul requested the 15 federal agencies provide all documents, records and communications related to the DEFUSE project and PREEMPT Proposers Day events since 2016 at which agency personnel were present.

In addition to the NIAID and DARPA, Paul sent requests to the heads of the National Institutes of Health (NIH), the U.S. Department of Homeland Security, the Centers for Disease Control and Prevention (CDC), the U.S. Agency for International Development (USAID), the U.S. Department of Agriculture, the Defense Health Agency, the U.S. Department of Health and Human Services, and the Navy and Army, among other agencies.

USAID funded EcoHealth GOF research in 2015

Marine Corps Major Joseph Murphy, an internal DARPA whistleblower, in 2021 was the first to expose the 2018 DEFUSE proposal. Murphy said the EcoHealth proposal was later funded by NIAID — then under the direction of Dr. Anthony Fauci — through sub-grants to EcoHealth Alliance.

EcoHealth Alliance in turn worked with Wuhan lab to engineer SARS-CoV-2.

Murphy shared a DARPA document outlining the agency's decision not to approve the EcoHealth Alliance project, noting "prior work under USAID Predict," a pandemic preparedness program that "identified high risk of SARSr-CoVs in specific caves in Asia."

In a Senate hearing Tuesday, Paul grilled USAID Administrator Samantha Power about her agency's funding of gain-of-function research in China through EcoHealth Alliance. Power denied knowledge of any such program, "USAID has not authorized gain-of-function research," she said. "This is the first time seeing this."

Paul presented a poster-sized enlargement of a 2015 paper, "A SARS-like cluster of circulating bat coronaviruses shows potential for human emergence," co-authored by Shi Zhengli of the Wuhan lab — and others, including Baric — with an acknowledgment section that credited "USAID-EPT-PREDICT funding from EcoHealth Alliance."

After reading sections of the paper establishing that the researchers were undeniably conducting gain-of-function research, Paul raised the 2018 PREEMPT meeting where the DEFUSE project was presented, with its intention to insert a novel furin cleavage site "which doesn't exist in nature but makes it incredibly more infectious in humans," he said.

Paul said USAID was at the meeting — before Power joined the agency. "But nobody from USAID and nobody from all 15 agencies ever told anyone about this project," he said, expressing incredulity that those attending the meeting would not have made a connection between DEFUSE and SARS-CoV-2 when it emerged in 2020 and "come forward to warn us that this could be a virus not from nature."

The DEFUSE grant proposal and the PREEMPT program

In 2018, EcoHealth Alliance's Daszak proposed the DEFUSE (Defusing the Threat of Bat-borne Coronaviruses) project to DARPA's PREEMPT program. The proposal aimed to develop a bat vaccine to prevent SARS-related coronaviruses in Asia, focusing on high-risk hotspot bat caves in China.

The PREEMPT program was established to identify and mitigate emerging pathogenic threats. The DEFUSE proposal aligned with the PREEMPT program's goals by aiming to suppress the viral population of SARS-related coronaviruses in bat populations, reducing the risk of spillover into humans.

DARPA hosted the 2018 "PREEMPT Proposers Day" to introduce potential applicants to the PREEMPT program. The event provided an overview of the program, facilitated networking among potential proposers, and provided a platform for attendees to present their technical capabilities and interest in forming partnerships.

Attendees included government personnel — the 15 agencies Paul listed — academic researchers and representatives from various organizations interested in collaborating on the project.

Presenters were allowed only a single slide and three minutes to pitch their projects. EcoHealth's slide included the following gain-of-function research proposition:

> "Experimental assays to test QS0 jump potential: Sequence QS0 spike protein similarity to high-risk SARSr-CoVs, model spike structure to assess ACE2 binding, then in vitro and ACE2 humanized mouse experiments. Use results to test machine-learning genotype-to-phenotype model predictions of viral spillover risk."

DARPA ultimately rejected the DEFUSE proposal due to significant weaknesses, including the potential for dangerous gain-of-function research and the lack of risk mitigation plans.

Daszak under increasing scrutiny

Paul on April 9 penned an op-ed for Fox News outlining his committee's new investigation.

"Under duress, the administration finally released documents that show that the DEFUSE project was pitched to at least 15 agencies in January 2018," he wrote.

Paul alleged Daszak concealed the DEFUSE proposal and that UNC scientist Baric failed to reveal that the Wuhan lab had already proposed to create a virus similar to COVID-19.

On the "RFK Jr Podcast" Thursday, Paul called Daszak "the bag man for Wuhan, China" and "basically a money guy" who has been able to procure "over $100 million from the government … through schmoozing and … fancy proposals."

Daszak was a U.S. representative to the World Health Organization's 2021 investigation into the origins of the SARS-CoV-2 virus, which ultimately found the lab-leak theory "extremely unlikely."

Paul, who on April 1 announced the launch of a bipartisan investigation into the origins of COVID-19, told Kennedy he believed Daszak has been concealing information about the development of viruses in China. "He's evidence of what's gone wrong and what has gone amok in a scientific community and the grant community," Paul said.

House Republicans have also been investigating Daszak. In November 2023, the House Oversight and Energy and Commerce committees conducted a closed-door transcribed interview with Daszak.

Because new documents recently received by the committees under a Freedom of Information Act (FOIA) request contradict portions of Daszak's testimony, the committees have scheduled a public hearing with Daszak on May 1.

At issue is Daszak's statement that EcoHealth Alliance would only be conducting gain-of-function research in the U.S. if DARPA approved the DEFUSE proposal. But the FOIA documents suggest, "EcoHealth intended to mislead DARPA and conduct the risky research at the Wuhan lab instead," according to an Energy and Commerce Committee press release.

In the announcement for the upcoming hearing, the committee chairs quoted from their letter to Daszak:

> "These revelations undermine your credibility as well as every factual assertion you made during your transcribed interview. The Committees have a right and an obligation to protect the integrity of their investigations, including the accuracy of testimony during a transcribed interview. We invite you to correct the record."

'Just a trail of lies, obfuscations and cover-ups'

In an interview with the Daily Mail, Paul said Fauci likely knew as early as 2018 about the Wuhan lab's desire to create a coronavirus. He also said Fauci "commissioned people to say the opposite" of what they actually thought about the origins of the virus.

Fauci repeatedly denied that NIAID funded gain-of-function research under his watch. During a contentious exchange with Paul at a July 2021 Senate hearing, Fauci said, "Senator Paul, you do not know what you are talking about, quite frankly. … The NIH has not ever and does not now fund gain-of-function research in the Wuhan Institute of Virology."

Francis Collins, M.D., Ph.D., then-director of the NIH, in a May 2021 statement made the denial even broader, saying, "Neither NIH nor NIAID have ever approved any grant that would have supported 'gain-of-function' research on coronaviruses."

Paul told Kennedy he had a 250-page document on his desk concerning a briefing for Fauci on NIH's interaction with coronaviruses, but that "every word has been … redacted."

"I do think there was an enormous conspiracy … because they knew that they had funded this lab in Wuhan, and that … blame would attach to them for the pandemic," Paul told Kennedy. "And there's just a trail of lies, obfuscations and cover-ups."

Jamie Metzl, a former senior fellow at the Atlantic Council who in 2021 called for the removal of Daszak as president of EcoHealth Alliance, weighed in on the emerging controversy:

NIAID has not commented on its involvement, according to the Daily Mail. Spokespersons for the Army and CDC acknowledged receipt of Paul's letters and said they would be responding, according to The Epoch Times.

A statement released by EcoHealth Alliance claimed Paul's op-ed "uncritically repeats several unfounded and false claims" and that the organization "did not support 'gain-of-function' research at Wuhan lab" or "send 'millions of dollars' to another scientist to create chimeric coronaviruses."

EcoHealth further claimed that at the time of the 2018 meeting, the DEFUSE proposal had not yet been drafted or submitted to DARPA, and that "the presence of a Federal Agency at the Proposer's Day event does not mean that they had detailed information" about the proposal.

So our government paid to develop the virus then paid to develop, distribute, and administer the vaccines. It's no wonder the U.S. is floundering in debt.

"CDC Discloses '780,000 New Reports of Serious Side Effects' After Covid-19 Vaccination"

The US Centers for Disease Control and Prevention **(CDC) recently released "780,000" previously undisclosed reports about a wide array of adverse effects after COVID-19 vaccination, years after the federal government undertook an intensive campaign to delegitimize such talk as "harmful misinformation."** The reports, submitted to the agency's V-Safe reporting system, allege experiencing heart inflammation, miscarriages, seizures, unconsciousness, Bell's palsy (a partial and temporary facial paralysis), and more. Data from V-Safe used in a court case revealed that 800,000 of the system's 10 million participants, or approximately 7.7%, reported needing medical care after COVID injection.

REVEALED: CDC, NIH Officials Were EcoHealth 'Partners' During Controversial Wuhan Gain Of Function Collaborations.

EcoHealth Alliance – the research group using funds from Anthony Fauci's National Institutes of Health agency to work with the Wuhan Institute of Virology – counted several high-ranking American government officials as research partners during its controversial collaboration with the Chinese Communist Party-run lab.

Ana Mihalcea's latest interview, well, it is the most recent I have seen confirms what I had been finding related to the nano metals, nano dust, SMART dust, neuro dust that DARPA has been working on, when this is factored in with frequency and weather warfare by whatever manner this has been distributed, it is nano aerosolized metal particulates that is being described as having the capability to get into our bodies and to penetrate the blood brain barrier to hook us all up to neuralink, neuralace, IOT for untold horrors.

This is still considered highly secret research really, even though I can pretty much type in those terms and find various papers on this from NIH, MIT, DARPA and other tech/military sources, what we are talking about really seems to be a full on assault on humanity, it is being described by people at WEF, DAVOS who are saying we will have no choice in this. Klaus Schwab was a protege of Henry Kissinger a pilgrim society, eugenist war criminal. As Harry Vox has pointed out in his interviews on this topic, NSSM 200 and various other documents are lockstep marching orders and that memo describes depopulation, not population

I disagree with you on this just given that since military took over this research these agencies and corporations have been only focused publicly on the ionizing radiation effects, so that part is considered a very narrow field that they insist that most things are not within those ranges. However, early research suggested that both non ionizing and ionizing radiation caused different ill effects and those were being studied in depth up until the research was taken from the public, but they continued to study these effects privately. We have many of these in depth reports, there is a well known Russian report, the Naval Medical Research Institute report put out by Dr.Zorach Glaser in 1971, there are several reports published by different agencies in 1966, There is one from the period of 1940-1960 titled Early Research on the Biological Effects of Microwave Radiation. I have seen so many different reports that include effects to the body internally and to the brain including the blood brain barrier. There is a NASA report titled Electromagnetic field interactions with the human body: observed effects and theories from 1981.

"Paul requested the 15 federal agencies provide all documents, records and communications related to the DEFUSE project and PREEMPT Proposers Day events since 2016 at which agency personnel were present."

All of this is well and good, but what's the end goal here? What will happen to ALL these people who lied and deceived the public? Anything?? They gain notoriety? Receive jail time? If all this does is bring to light - for the umpteenth time - that our govt is corrupt beyond belief and beyond repair, and - Well we're just letting you know, constituents - then STOP these investigations. Most SMART people are aware of the rampant govt corruption, and short of storming the castle at this point, I have yet to hear real answers on how we can stop it..

One needs to factor in that for the most part, agencies, alphabet organizations, etc. believe we are basically, idiots.

Then, we factor in the greed and corrupt intent to make them richer and be able to control all of our assets, education, entertainment, health decisions, faith, family and the list goes on.

Then we factor in most people are idiots and want to blame everyone and anything that goes on in their lives on someone else or something else. When and "idiot" gets sick, they run to a doctor which give then a script, sends them home and waits to see if the person gets better or not. I believe they hope the drugs "do not work" so they can keep coming back for a different, better, script.....you get the jist.

My guess on the plandemic is this: They hoped the idiots would think it was a "virus" causing the deaths and destruction of lives and not the jab. Period.

That didn't happen. Half figured it out in a day or two. Others took a few months. Others years. Either way, they know now that millions were injected with a biological weapon most likely used against us to weaken the country so they can go on the destroy everything in their site.

All one has to do is look at the countries that were not "eligible" for the jabs because they didn't want to sell their military and give away their countries? These countries have zero covid deaths.

Coincidence?

Or too sick to fight and then they can keep their pockets lined with greenery from shoving all their poison down our throats and the throats of our children and their children....

Remember the Boy Who Cried Wolf? Our reckless and deceitful government has shot themselves in the foot.

I remember about 25 years ago when I was a contractor caught in the middle of a deliberate scheme by DOD to commit fraud. I didn't know they were using me to do so but when I found out, I was enraged and threatened to go to a local news station to report them. Being from a Federal family, I lectured them and gave them a piece of my mind. Oh my gosh Kim, the attorneys and investigators jumped up out of their chairs (literally!!) and begged me not to use their names. But what really strikes me as so different from today is that they kept saying over and over and over again, ' You DO trust your government, don't you? We don't want you to not trust your government.' I never answered them and they kept on and on and on. It was so weird Kim and looking back on that day, I realize that our current government doesn't care at all that we trust them! They don't care at all about their personal or professional character and being worthy of our vote or our trust in them.

"ECOHEALTH VP: FAUCI'S BUDDY PETER DASZAK WORKS FOR CIA"

https://www.spreaker.com/ep...

"Three names have been front and center for the past two years in investigations into the origin of the Coronavirus pandemic. Those names are Anthony Fauci, Peter Daszak, and Eco Health Alliance. Daszak is a close associate of Fauci. Daszak is also the leader of Eco Health Alliance.

Fauci laundered National Institute of Health grant money through EcoHealth Alliance to get the dollars to the Wuhan Lab in China. It is public knowledge that Fauci used Daszak to funnel US tax dollars through EcoHealth Alliance to finance coronavirus experiments in Wuhan. Despite the public evidence that Fauci and Daszak worked together to move money to Wuhan, there have been no investigations of Fauci, Daszak, and EcoHealth Alliance.

Does that seem strange to you? Other than Sen. Rand Paul, nobody else in Washington seems to care about the Wuhan lab link to Fauci and Daszak."

"Great Post"!
"Three tramps were arrested in Dallas on November 22, 1963, but also other persons were arrested around Dealey Plaza."
The three tramps are three men photographed by several Dallas-area newspapers under police escort near the Texas School Book Depository shortly after the assassination of United States President John F. Kennedy on November 22, 1963. Since the mid-1960s, various allegations have been made about the identities of the men and their involvement in a conspiracy to kill Kennedy.

Howard Hunt was one of the tramps. He confessed on his deathbed to his son, but that was too late for the truth to come out and make a difference. Besides, corporate news barely mentioned it. Last Second in Dallas- an expanded revisited examination of the forensic evidence by Tink Thompson is one of the best analysis of what happened that day, and after in the coverup.

1.) **"DARPA Covid Whistleblower's Blockbuster Claim"**
'Project Veritas says buried documents show Fauci signed off on "Forbidden" Gain-of-Function Research'

According to alleged leaked documents prepared for the Pentagon's Inspector General, DARPA rejected a 2018 proposal by the EcoHealth Alliance to do research on bat-borne coronavirus, in conjunction with the **Wuhan Institute of Virology, because in DARPA's judgment, it was too close to forbidden "gain of function" research. "But Dr. Anthony Fauci later green-lighted the research, despite later denying under oath that he did."**

The documents also appear to confirm that "Ivermectin and Hydroxychloroquine are effective treatments for Covid infection". If this is true, and these documents are authentic, it raises the obvious question: why did the US Government work to suppress this knowledge and these treatments?

3.) "Atomic Bombshell: We Have Proof That 'Rothschilds' Patented Covid-19 Biometric Tests in 2015"
It's not disputable, since the information comes from official patent registries in the Netherlands and US. And we have all the documentation.

DEFUSE and the Pangolin Coronavirus MP789

To understand the origin of Malaysian/Guangdong pangolin coronavirus MP789, is to understand the origin of Covid-19. To DEFUSE the hypotheses about the origin of Covid-19.

(1) September 2019 article, 'Viral Metagenomics Revealed Sendai Virus and Coronavirus Infection of Malayan Pangolins', by Ping Liu and others, at the Guangdong Institute, published September 2019, shows lungs 7 and 8 of Malaysian pangolans with high level of sequence similar to Chinese bat coronavirus . While this a good start, if anyone has been researching this the last four years, then it should be very clear that many of these illnesses, viruses and diseases are being created by a very hidden system where gain of function is used to manufacture viruses that are then inserted by way of adjuvants etc in the vaccines that we are pushed to take for various illnesses with even the annual flu this has been found to be the case, this maybe is why SV40 was found in these C19 injections. The advertising for this system alone should be questioned when they are patenting/profiting from these things that are causing injuries and why would they do that? Well, for one the 1986 National Childhood Vaccine Injury Act is what compelled schools to require vaccination in order to attend public school without full informed consent really because all that most parents receive is a small paper describing the most rare and the most common symptoms and parents are urged at birth to get these injections by telling them it will be mandatory to attend schools, this is how they are nudged.

Just before this Act went into effect though, we had two things happen that have led us to where we are now, the Bayh Dole Act of 1980/1981 and something called EO 12333 an order that includes HHS human experimentation, it is a connection that pretty much cements the relationship between HHS, academia, military and intelligence and even the

"Reiner was Targeted:"
"Whistleblowers Secret Dossier Prove a Construct to Shut Up Reiner Fllmich & Put Him Behind Bars"

A whistleblower passed a "secret dossier" written by intelligence services to Reiner Füllmichs defence attorney Dr. Miseré which provides both evidence and supporting facts, that now prove beyond reasonable doubt according to Dr Füllmich that the criminal proceedings against him are nothing more than a "construct" to "shut him up and put him behind bars "without any legal substance whatsoever."
